

ADDENDUM #1

Invitation for Bid #2018-01, Environmental Cleanup, 204 S. 8th St., LaGrange, Missouri (Former LaGrange School)

Date: March 8, 2018

NOTICE TO BIDDERS

Bidders on the above described project are hereby notified that the IFB has been amended as follows. Contractor shall acknowledge receipt of the Addendum on the bid form.

AIR SAMPLING

Page 17 of the IFB discusses air sampling for asbestos. As this building is scheduled for demolition and there is no friable ACM, air sampling will not be required as part of this project.

QAPP

Page 18 of the IFB discusses a required QAPP. As no sampling events will be required for this project, a QAPP will also not be required.

LBP

As this building is scheduled for demolition, there will be no LBP remediation/stabilization with this project. Although LBP remediation is discussed in the approved RAP, the MDNR project manager is aware that it will not be required.

BIDDERS QUALIFICATIONS

- The Statement of Bidders Qualifications (item #6) asks for a summary of similar experience with “petroleum and LBP abatement.” This is not required, however, we are asking for a summary of similar experience with asbestos abatement.
- The Subcontractor Form referenced in item #14 is the second page of this document.
- Line Items 16 and 17 appear to be missing. This was a numbering error – there are no missing items.

CONFIRMATION SAMPLING

A note under the bid form discusses confirmation sampling. The RAP does not require confirmation sampling so this note should be disregarded.

SUBCONTRACTOR DISCLOSURE FORM

**Environmental Remediation
at
204 S. 8th St, LaGrange, Missouri**

(This form shall be completed and submitted with the project bid)

IF NO SUBCONTRACTORS ARE TO BE USED, CHECK HERE. _____
